
NOTICE TO MARINERS

No. H. 165/2018

RIVER HUMBER

ALEXANDRA DOCK HULL – DREDGING OPERATIONS

NOTICE IS HEREBY GIVEN that commencing on Thursday 18 October 2018 (or as soon after as circumstances permit) for a period of ten days, dredging operations will be conducted on the Western Approach Jetty at Alexandra Dock, Hull, as indicated on the diagram below.

The dredging will be carried out by backhoe dredger “**VITRUVIUS**”, LOA 65m, who will during the dredge, maintain her position using spud legs. The spoil from the dredge will then be discharged into the self propelled split hopper barge “**BOUSSOLE**”, LOA 99m.

The spoil will be transported to the spoil ground at Holme Channel Deep – north of Foul Holme Channel.

The dredging and discharge operations will be ongoing 24 hours a day during this period.

Survey works in area will be conducted by fast RIB “**FREEDOM**” also working 24 hours a day operating from Alexandra Dock, Hull.

The “**VITRUVIOUS**” and all barges and vessels associated with the works will exhibit the lights and shapes prescribed by the International Regulations for Preventing Collisions at Sea and, in addition, will keep a listening watch on VHF Channels 11, 12 and 16.

MARINERS ARE REQUESTED to navigate with caution in the vicinity of these operations.

**CAPT. A. FIRMAN.
HARBOUR MASTER, HUMBER**

18th October 2018
