
NOTICE TO MARINERS

No. H. 54/2018

HUMBER APPROACHES

HORNSEA WIND FARM – CABLE LAYING OPERATIONS – CENTRAL CABLE CORRIDOR

NOTICE IS HEREBY GIVEN that commencing Monday 04 April 2018 (or as soon after as circumstances permit) and continuing for a period of five weeks, cable laying operations on the central line will be carried out as part of Hornsea Offshore Wind Farm (Project 1) throughout the corridor shown below.

This Notice refers to the cable corridor laying operation beyond the onshore intertidal area (referenced in Notice to Mariners H.53/2018).

The works in this area will be carried out by a range of vessels including:

Vessel Name	LOA (m)	Call Sign	Vessel Type
Ndurance	99.00	5BVH3	CLV
Ella F	35.00	PBMN	AHT
Sea Bravo	32.08	PHSB	AHT
MTSL Avocet	23.29	2DXB6	CTV

The cable laying vessel '**NDURANCE**' will be secured using a seven point anchor system, and will be manoeuvring slowly through the movement of these anchors, as the cable is laid through the corridor.

The vessels listed above will liaise closely with VTS Humber during the campaign, advising when vessels intend to move and any operations that are ongoing. They will exhibit the lights and shapes prescribed by the International Regulations for Preventing Collisions at Sea and will maintain a listening watch on VHF Channels 16 and 14.

MARINERS ARE WARNED that due to the limited manoeuvrability of the cable laying vessel, all other vessels unless operating as part of this project, are requested maintain a safe 500m distance. Additionally mariners are advised to pass at a reduced speed to avoid creating a wash.

Subsequent Notice to Mariners will be issued to cover further scopes of work associated with this project.

**CAPT. A FIRMAN
HARBOUR MASTER, HUMBER**
