TEL +44 (0) 1482 617291

VHF CHANNEL 11 or 9

GOOLE MARINE CONTROL CENTRE TEL +44 (0) 1405 721128

VHF CHANNEL 14

IF THE INADEQUACIES HAVE BEEN NOT ADDRESSED BY THE PORT AUTHORITY, DETAILS OF THE INADEQUACIES CAN BE REPORTED DIRECTLY TO THE GOVERNMENT AGENCIES RESPONSIBLE, THE MARINE AND COASTGUARD AGENCY; USING THE FORMAT OUTLINED IN SECTION 6.6 OF THE PORT WASTE MANAGEMENT PLAN.

www.abpnotify.co.uk

Under UK legislation in line with an EC directive the MS (Port Waste Reception Facilities) Regulations 2003, and as amended makes it a requirement that vessels notify their next port of call of the types and amount they will be discharging. Information must be given at least 24 hours in advance of arrival or as soon as they leave their last port.

5 SIMPLE STEPS TO ONLINE PRIOR WASTE NOTIFICATION

Step 1 The agent on behalf of the vessel will order the vessel in via Agents on Line system. The waste declaration form is available through Agents on Line. Alternatively the Master (or Agent on his behalf) can logs onto www.abpnotify.co.uk; select the correct port and fill the information.

Step 2 The Agent or Master will fill in the information requested.

Step 3 Click on 'submit' at the end of the prior notification form to send information to the computer server. When the system receives the data, it automatically generates a PDF version of the prior notification form and sends a copy on to the relevant ABP port and back to the email address of the person who submitted the information.

Step 4 The Master/Agent saves and prints the returned PDF version of the notification form and files it for their records. The Deputy Dock Master does the same.

Step 5 Exit site.

Please be aware that the MCA require all sections of the waste declaration form to be completed in line with Marine Information Note 377

For your information below is a list of berths along with whom the returns should be made. (Do not count temporary berths)

Hull Enclosed Docks
